#### Get to know the Pilsner Urquell legend

We brewed the first pilsner type lager in the world with its characteristic full taste and limpid golden colour in 1842. It has been a model beer for more than 80% of existing beer brands so far. It owes its uniqueness to high quality ingredients and a unique brewing procedure. Go on a tour of the Pilsner Urquell brewery, and get to know the story of the legend born in 1842.

#### **Where our tour will take you**

The Pilsner Urquell brewery offers tours, which will impress beer fans and history lovers. You will view the original locations where the famous Pilsner Urquell beer was born 180 years ago, and whose story continues even today. You will learn about the ingredients from which Pilsner Urquell beer is brewed. We will also

show you the heart of the brewery, three brew houses from different centuries. The culmination of the tour is a tasting of unfiltered Pilsner Urquell beer in the historical cellars.

### **Bottling facility tour**

From the Brewery Courtyard, we will travel in a brewery bus for a tour of the bottling facility, which is one of the most modern in Europe and processes a remarkable 120,000 bottles and 60,000 aluminium cans per hour. The BOTTLE FILLING FACILITY TOUR is part of the Pilsner Urquell Brewery Tour for CZK 380.
